    raise RuntimeError(
```

```
RuntimeError: requested profile "/Users/fornasier/chromium-project/chromium-legacy/src/chrome/build/pgo_profiles/chrome-mac-main-1687132334-cee0a7f66e5955067075eb72b656e2d07e47e249.profdata" doesn't exist, please make sure "checkout_pgo_profiles" is set to True in the "custom_vars" section of your .gclient file, e.g.:
```

```
solutions = [
```

```
{
```

```
  "name": "src",
```

```
  # ...
```

```
  "custom_vars": {
```

```
    "checkout_pgo_profiles": True,
```

```
  },
```

```
},
```

```
],
```

and then run "gclient runhooks" to download it. You can also simply disable the PGO optimizations by setting |chrome_pgo_phase = 0| in your GN arguments.

See //build/config/BUILDCONFIG.gn:352:3: which caused the file to be included.

```
